Firstbaze is focused on development by enriching young and older adults experiences of their immediate communities. We achieve this by stimulating discuss and infusing life into the collective environment through media, events and training.

Our services:

- Media: news dissemination and critical analysis of local and international policies, supporting growth of media industry, local arts and culture,
- Hosting and supporting educational and entertainment events aimed at nurturing talents and stimulating creativity through events and positive experiences across ages and people groups.
- Developing training and competencies that equip young persons towards becoming effective and confident adults and ultimately citizens in an altruistic society.
