Meet our enterprising designer and creator of **MAXiM Fashions**. With the support of her husband, they started actualising her dream of making bespoke yet affordable clothes for all age groups. Her special interest remains making dresses for toddlers and preschool age groups. She however has no limits to her clientele going by her collections which cuts across all age groups and genders. Her passion for dress making leaves no one in doubt of what she brings to the table.

In line with our objectives Firstbaze will be showcasing MaXiM Fashion's collections in addition to bringing you updates on training opportunities for those interested in apprenticeship at **MAXiM Fashions**.
